**MAKE ANANSI, “THE TRICKSTER!”**

**Supplies:**
- Black construction paper
- Pencil
- Scissors
- Single hole punch (optional)
- 2 “googlie eyes”
- Glue
- String, yarn, or ribbon – your choice of color

**Step 1:**
Using the pencil, trace the four fingers of each hand on the black construction paper - Leave off the thumbs!

**Step 2:**
Carefully cut out the hand tracings to make Anansi’s eight legs.

**Step 3:**
Glue the palms of each hand together, slightly overlapping them, to make Anansi’s body.

**Step 4:**
Glue “googlie eyes” in the center of the palms to make Anansi see you!

**Step 5:**
Use the hole punch (or poke a hole using scissors with adult help) at the top of Anansi’s body and tie string to hang up Anansi from his web! You can also glue the string to the back of Anansi’s body.
