

YOU CAN WEAVE!

Craft created by: [Hello Wonderful](#)

SUPPLIES

- Q-tips
- Markers (we love our [Sharpies!](#))
- Yarn
- Hot Glue
- Small safety pins
- Straws (if you want to make the easels)
- Cardboard cut into the length of your Q-tips and as wide as the number of Q-tips you use

Step 1. Use your markers to color in the end of your Q-Tips (optional). Hot glue 5 Q-tips to each cardboard piece. Cut a piece of yarn and tie one end to the first Q-tip and the other end to the safety pin.

Step 2. Have your child start weaving by threading the safety pin under and over each Q-Tip and doing the same back and forth to the other side.

Step 3. You can add additional colors by tying one color yarn to the other and then continuing. Snip off any loose ends and tuck those under the weave. Continue until you get to the end, and then tie the yarn to the last Q-tip. Again, tuck any loose ends underneath the weave.

Step 4. You can make easy straw easels to display your yarn loom! All you need to do is snip off 4 equal lengths of straws and hot glue as shown.
